The 1974 LUMEN BOARD wishes to dedicate the yearbook to President Harold Bentley, for his outstanding dedication to the advancement of today's youth.

"I don't know what your destiny will be, but one thing I know, the only ones among you who will be really happy are those who have sought and found how to serve."

# Physical Education and Leisure Sports

The physical education program here at NECC is not a mandatory program for its students. Instead, Carl Beal and Jack Hess have developed a program of physical education and leisure sports that are offered as elective courses to the student. In its second year, the program has met with good success.

The Lumen Board extends a sincere, appreciative thank you to their advisor, Paul McGrady. Advisors are there to advise. We do not have to take their advice, but only listen to it. However, our staff chose to both listen and *take* Mr. McGrady's advice; and therefore, you are now holding the Lumen, 1974, in its greatest form ever.

Jack Warner, in August of 1973, told the Editor of this book to go ahead, and produce the best yearbook yet. Because of Jack's encouragement, the Best Of NECC has been printed.

Very special thanks are due to Joe Donovan, of the Keller Co., for all his "extra's" in helping us produce the 1974 Lumen. Without him, the book would not have made it.

This school is reality. It was once a dream.

In 1960, Harold Bentley was appointed director of a new college, named Northern Essex. However, the building that was to be the new school was hardly that acceptable as a college.

President Bentley had a dream. A school on sprawling acres.

1965 brought a deed to the President, in the form of 110 acres, on which to build his dream.

President Bentley's dream, that became reality, has given many their reality, and to some their fantasies. Northern Essex lives on, because of a dream.

"... that freedom is the very nature of his being, that whatever stands against that freedom must be set aside, be it ritual or superstition or limitation in any form."

*Jonathan Livingston Seagull*
